MOHAMMAD SAMEER

BTech Student | Aspiring Software & Web Developer

sameer44359@gmail.com
GitHub: sameer0786-ai | LinkedIn

PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate at SR University with hands-on project experience in web development, Python-based application development, databases, and basic electronics. Familiar with HTML, CSS, JavaScript, Python, Flask, SQL, and PostgreSQL. Interested in building practical, user-friendly applications while continuing to strengthen software development and problem-solving skills.

TECHNICAL SKILLS

Programming & Web	Python, JavaScript, HTML5, CSS3
Backend & Frameworks	Flask
Databases	PostgreSQL, MySQL, SQL
Tools	Git, GitHub, Visual Studio Code
Electronics	NE555 timer, LEDs, breadboard circuits, resistors, capacitors

PROJECTS

Library Management System

Technologies: Python, Flask, PostgreSQL, HTML, CSS, JavaScript, Git, GitHub

Developed a web-based application to support library operations and book management. Implemented functionality to add, view, edit, and manage book records. Used Flask for application logic and database operations, PostgreSQL for storing book information, and web technologies to build the user interface.

View project repository

Personal Portfolio Website

Technologies: HTML, CSS, JavaScript

Created a responsive personal portfolio website with About, Skills, Projects, Education, and Contact sections to showcase technical skills and project work.

LED & 555 Timer Experiments

Components: NE555 timer, LEDs, breadboard, resistors, capacitors

Explored basic electronics through hands-on breadboard experiments involving LED control and timer-based blinking circuits.

EDUCATION

Bachelor of Technology (BTech) — Computer Science & Engineering **2025–2029**

SR University | Currently pursuing

CURRENT LEARNING FOCUS

Backend development, database connectivity, responsive web design, and practical application development.
